REAL Proof of Full Vaccination/Negative COVID Test Entry Requirements

Regina, Saskatchewan – Effective November 1, anyone 12 years of age and older entering any Regina Exhibition Association Limited (REAL) facility will be required to show proof of full vaccination or a negative COVID-19 test within 72 hours of coming on campus.

For children turning 12, there will be a three-month leeway during which they are exempt from the requirements. Three months after their 12th birthday, they must either be fully vaccinated or provide a negative test.

Staff will be stationed at the main entrance of the Cooperators Centre to check everyone coming through the door. Due to the size and scope of the REAL Campus, vaccination status checkers will also roam the rest of the venues and common areas to conduct random screening checks.

Tenants on Campus will be required to verify vaccination status with their staff and patrons.

As per the Public Health Order, REAL maintains its commitment to the provincial requirement for proof of vaccination or negative test for public access to event and entertainment venues, including conference centres, concert venues, live-music venues, and indoor facilities hosting ticketed sporting events. This will include all indoor facilities offering indoor ticketed events on the REAL campus, including all Regina Pats games and Canadian Western Agribition.

From November 18-28, proof of vaccination will be at gates entering the REAL campus due to set up and hosting requirements for Canadian Western Agribition.

Proof of Vaccination

The Government of Saskatchewan has established the following acceptable forms of proof of full vaccination:

- Wallet cards received at time of immunization;
- A printed copy or screenshot of your [MySaskHealthRecord](#) vaccine certificate (with or without a QR code);
- A COVID-19 vaccine printout from Saskatchewan Health Authority Public Health;
- A QR code/MySaskHealthRecord vaccine certificate uploaded to your SK Vax Wallet app;
- Official proof of vaccine documents from other provinces may be considered.

Proof of Negative Test

Individuals who do not have proof of vaccination have the option of providing proof of a negative

COVID-19 rapid antigen or polymerase chain reaction (PCR) test result from within the last 72 hours. This test is to be done at the expense of the individual. Self-administered take-home rapid antigen tests (e.g. pictures of negative tests) will not be accepted.

ID Required

In addition to the proof of vaccination or negative test, photo ID will be required from anyone 18 and older. Youth aged 12-17 will also need to show ID unless accompanied by an adult with proof of full vaccination and ID. Youth aged 12 to 17, visiting REAL without an adult will be allowed to present photo ID, birth certificate or health services card.
